In-house Technical Training

Did you know that M.A. Ford offers training both at YOUR site or at OUR site? As part of our Integrated Manufacturing Solutions, M.A. Ford welcomes you and your staff to our facility for hands-on training and tours! Can't get to M.A. Ford's Corporate Headquarters? No problem!! We will bring the training to you or schedule a virtual training session. Due to social distancing guidelines, on-site training is being limited to 3 people per session.

If you are interested in the in-house technical training please contact your representative today! Find your M.A. Ford representative [here](#).

M.A. Ford® 3MV End Mills

This M.A. Ford® solid carbide TuffCut® 3MV 3 Flute Micro End Mill is perfect for high performance micro milling on any ferrous material, especially material used in medical and aerospace manufacturing. It's made from ultra-premium grade carbide with extreme toughness for low rigidity applications and small tools. With its hard heat resistant coating the life of the tool is extended 2-3 times longer over competitor products. Sizes range from 1/64"-1/8" and 0.5-3.0mm.

Benefits and Features

- 3 Flute
- Solid carbide
- Stub length Series 3MVS
- Standard length Series 3MVR
- Coated with ALtima® 52,
- 31°-35° Variable helix
- Manufactured from premium grade ultrafine carbide material for extended tool life
- Center cutting
- Square end or corner radius styles and neck relief options
- Common Shanks
- Material Applications: Steels, Stainless Steels, Hardened Steels, Special and High Temp Alloys
