M.A. Ford[®] Specialized Firearms Manufacturing Products

M.A. Ford[®] manufactures specialized tooling for the firearms industry that delivers both precision and productivity as well as our high-performance standard.

Our end mills, drills, and reamers are widely used across the firearms industry. These tools include step drills, picatinny rail cutters, and several roughing and finishing tools for efficient machining. M.A. Ford[®] also offers an extensive range of tools designed for the AR upper and lower receivers.

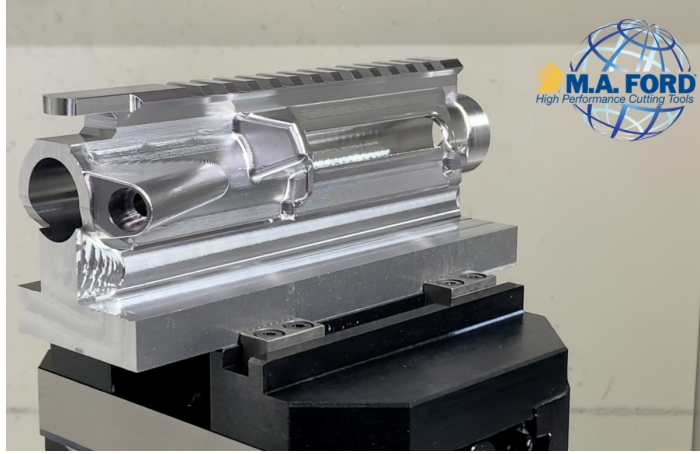

These custom tools are designed for specific applications, such as chamber reaming, rail cutting, cylinder fluting, and more.

Check out our updated M.A. Ford[®] Firearms Brochure featuring a comprehensive inventory of our capabilities in this industry.
