Rapid Turn Around Reamers

Need a non-standard size, carbide, straight flute chucking reamer? Call customer service to get quantity based pricing for all non-standard sizes above 1.1mm up to 16mm. For quantities of 25 pieces or less, delivery can be 3 working days on special size, **standard diameter tolerance** reamers if needed. Request RTA delivery with your purchase

order.

In addition, our standard carbide reamers from above 1.1mm up to .128" reamer diameter are produced with a male center. If your application can not accept a male center, contact customer service for pricing to remove the male center for you. When ordering add **NC (No Center)** at the end of the MAF tool number. Delivery is 3 working days if you specify RTA delivery on your purchase order.

M.A. Ford® High Performance Training

Where *high performance* is the *standard*

There's still time to register for our two latest high performance product training courses scheduled for April 17-18 and June 12-13. Aimed at M.A. Ford® end users and distributors, each session covers the latest product information, tooling applications and machining techniques.

Both 2-day programs are in person at our headquarters in Davenport, IA. Space is limited, so claim your spot now! For more information and to register online, click the register button below.

Shot Show Success!

In January some of our sales team made their way to Las Vegas, NV for the 2024 SHOT Show. Pictured left to right below: Russ Messer, J.D. Hucke, Matt Piscatelli, and Neale Hicks.

M.A. Ford's Director of Sales, Jim Ellis had this to say, "The key to this year's show for us was the exceptionally high quality of serious inquiries and leads we received from all aspects of the firearms sector. SHOT Week is an important showcase for our products and expertise, and our consistent presence at the show over the years has helped us to grow our share in this industry."
